

## SELF-ADHESIVE DECORATION AND PROTECTIVE FILMS

STYLE REFLECTS  
**PERSONALITY**

# WHO IS HEXIS?

HEXIS are a leading manufacturer of self-adhesive films intended for visual communication.

In 2014, the company celebrates its 25<sup>th</sup> anniversary, a quarter of a century of innovation!

HEXIS invest 3% of its turnover for R&D and employs 350 staff members worldwide. Since 2005 HEXIS has been ISO 9001 certified for its Quality management system.

The company specializes in high-performance cast PVC, polyurethane and latex films. These films are made for professionals in digital printing, signage, visual communication, vehicle wrapping and textile marking.

The HEXIS Group have an international presence throughout its subsidiaries in the French West Indies, Germany, Italy, Spain, Sweden and a distribution network over the five continents.

On its main site in France, HEXIS are proud to have created a cutting-edge R&D laboratory with the latest scientific equipment. It boasts an innovative development process for multi-layered cast films combined with a structured adhesive which avoids creases and helps evacuate bubbles during the application.

## HEXIS PRODUCTS MADE IN FRANCE

Thanks to its R&D laboratory and 2 factories based in Southern France, HEXIS have developed its own technology in order to provide high-performance films to the most demanding professionals: sign makers, print houses, screenprinters, but also railways operators, trains, trams, bus and car manufacturers have put their trust in HEXIS to supply the most up-to-date surface protection solutions.

# THE BENEFITS OF SELF-ADHESIVE FILMS

## ► QUICK

Reduces the boat  
downtime

## ► ECONOMICAL

Cheaper than paint

## ► ENVIRONMENTALLY-FRIENDLY

No toxic products  
left in the sea

## ► PROTECTION

Protects your paint  
against UV rays and  
discolouration

## ► STYLE

Your boat designed to  
your taste

## ► EASY MAINTENANCE

Simple to clean

## ► CHANGE

Unlimited colour changes,  
easy removal

# APPLICATION STEP BY STEP

## 1 PREPARE THE HULL

- ▶ Remove as many fittings as possible to ease the application
- ▶ The hull surface must be smooth and non-porous
- ▶ The hull must be cleaned using a suitable liquid

## 2 FILM APPLICATION

- ▶ The hull can be fully or partly wrapped
- ▶ Large choice of colours
- ▶ The film adapts to the hull shape thanks to its conformability
- ▶ Possible to combine coloured films and printed films

## 3 CUTS

- ▶ The film is cut around the various accessories
- ▶ The fittings can be removed and reinstalled
- ▶ The edges are sealed with a varnish
- ▶ Wait for 24 hours before launching in the water

## GLOSS AND MATT FILMS

The HX20000 is made of a multi-layered cast vinyl with a thickness above 100-micron and a HEX'Press adhesive liner allowing fast air egress and easy application.

This product is specifically designed for full wraps but also for markings on boats, vehicles, objects ...

Thanks to its thickness, the film keeps its colour even when stretched.

Most importantly, HX20000 is easy to apply thanks to its structured adhesive which facilitates air and bubbles egress.

TEXTURED  
FINISHES

The specific structure of our HX30000 combining a multilayered cast vinyl film with our famous HEX'Press release liner allows easy and fast repositioning of the film during the application.

The film has been especially designed for vehicle decoration [boats, cars, motorbikes, jet-skis etc.] and objects [furniture, household appliances etc].

Its thickness allows for a sustainable colour and the carbon, alligator, leather and brushed aluminium finishes boast great textured surface effects.

## SOLAR FILMS

Solar films applied on windows and portholes protect against sun-rays and offer optimal security. The main benefits of HEXIS solar films are:

- Customisation and enhanced aesthetics
- Protection from prying eyes
- Better window resistance if broken
- Heat reduction in cabin area
- Reduction of UV impact [premature cabin-ageing]

**HEXIS ADVICE:** the lighter colour your boat is, the darker the solar film should be

## CHARCOAL

- These films are specifically intended for high-end products
- They allow for worry-free sailing, protecting any valuables in your cabin from curious onlookers (radio, laptop, precious objects, etc)
- Transparent black

## TITANE

- The Titane range is specifically intended for dark-coloured boats
- These films give a fresh and cosy look to the cabin with an additionally spectacular improvement to the indoor comfort
- Transparent silver-grey

A REFLECTION OF  
YOUR STYLE

## INTERIOR DECORATION

HEXIS films are the ideal solution to decorate and design your boats, your interior or your work-area.

- Cabins, living-rooms, kitchens

## WHY CHOOSE HEXIS SELF-ADHESIVE FILMS?

- › Films are conformable and can be applied on any surface, including the most complex
- › Covered surfaces are waterproof and easy to clean
- › As opposed to paint, HEXIS films do not require much drying time and leave no harmful and unpleasant smells
- › Our films can recreate textured surfaces such as alligator skin, leather or carbon fibre

OURS COLOURS  
YOUR IDEAS  
**VARIOUS LOOKS!**

- HEXIS boasts a catalogue with over 150 colours and effects [opaque, transparent or textured]
- HEXIS quality: our films are manufactured using top-quality raw materials and pigments which guarantee long-lasting colours and impressive sustainability
- For your windows and glass, HEXIS offer a choice of transparent, translucent and etched-glass films
- Easy to apply: redesign your interior without any work!
- Versatile: HEXIS films can be applied on all substrates or existing furniture
