

Perfect your POP print business

The EFI™ VUTEk® LX3 Pro printer is designed for POP productivity and packed with innovation only available from EFI.

The EFI VUTEk LX3 Pro LED printer will help perfect your POP business. It's designed for high production throughput, higher volumes, and shorter lead times while maintaining image quality. And you get the versatility to support the widest range of media and applications.

At a glance

- Versatile 3.2 metre hybrid flatbed/roll-fed printer prints on materials up to 5.08 cm thick
- Lowest total cost of ownership in its class
- Eight colours plus white and multilayer printing
- Resolutions of true 600 or 1000 dpi
- Features 12pL greyscale print technology
- Powerful LED technology
- Not only meets the growing demands for higher quality with quicker turnaround times, but also offers the ability to print on new and unique substrates
- Allows you to grow your business with high-value speciality substrates, opening doors to more applications and unique, creative opportunities
- Offers greater image consistency/quality, reduced waste, and lower energy costs, which translates into a more efficient, cost effective, and environmentally friendly print solution
- Standard multi-queue on-demand functionality for multi-job printing
- Fiery® proServer with Fiery XF Production RIP and colour management workflow
- Bidirectional communication capability between the Fiery XF RIP and printer increases workflow efficiencies, job data collection, and enables seamless integration with EFI Web-to-Print and MIS/ERP solutions with native JDF connectivity
- Enhanced Service Program (ESP) warranty for your printer, Fiery proServer hardware, and Fiery XF software

The power of green LED technology

Brilliantly designed "cool cure" LED technology empowers you with the ability to do more for less. Increase your profit opportunity by offering more premium-margin jobs while reducing operating costs and your environmental footprint:

- Extends your range of supported substrates, including lower cost and added-value speciality media
- Increases uptime and productivity with instant on/off and less maintenance
- Drives down operating costs with up to 82% less energy consumption according to a Fogra study* and fewer consumable parts
- Reduces waste with consistent colour output and simple operation
- Satisfies customer requests for a greener print solution with low VOCs, lower power consumption, and less waste and consumables

* EFI's VUTEk LED printers show energy reductions of up to 82% when compared to devices with conventional mercury arc lamps. Calculations from Fogra's Energy Efficiency Project, "Energy efficiency of large and small format printing systems."

Media/Handling

- Handles flexible and rigid substrates up to 3.2 m wide and up to 5.08 cm thick
- Multi-roll capable — two 152 cm rolls
- Optional heavy-duty unwinder (HDU)
- Optional extension table with casters
- Three-quarter automated load and unload media handling options

Productivity

- Express Mode – 318 m² per hour
 - Production up to 94 1.2 m x 2.4 m boards per hour
- Production Mode – 215 m² per hour
 - Production up to 64 1.2 m x 2.4 m boards per hour

Environmental considerations

- Compressed air: 7–10 bar maximum at 453 l/m — dry air only (not included)
- Fully enclosed design for operator safety and environmental considerations
- Temperature: 20 °C to 30 °C
- Humidity: 30% to 80% (non-condensing)
- Machine weight: 3,039 kg
- Height: 168 cm
- Width: 630 cm
- Depth: 160 cm
- Electrical: 3-Phase, 60 Amps, 200–230 volt supply or 30 Amps, 400–460 volt supply

EFI Fiery proServer

- Optimised for use with the EFI Fiery proServer
- Bidirectional communication capability between the Fiery XF digital front end (DFE) and printer allows back communication of audit information on every print job
- Powerful production tools, such as nesting, step and repeat, scaling, cropping, and tiling
- Advanced ICC colour management for reliable colour, quality output, and proofing-quality colour

Genuine EFI Inks

- Supplied in 5.0-litre containers
- Expanded gamut CMYK pigments for world-class Pantone® matching
- EFI pigment dispersions ensure optimised size and concentration for best-in-class ink stability

Enhanced Service Program (ESP)

- EFI's industry-leading service and support program for your printer, Fiery proServer hardware, and Fiery XF software
- Thirteen months of Essential coverage, with 24-business hour (three-business day) response
- Eligible for upgrade to:
 - Critical: Providing eight-business hour (one-business day) response
 - ProActive: Providing 16-business hour (two-business day) response

EFI fuels success.

We develop breakthrough technologies for the manufacturing of signage, packaging, textiles, ceramic tiles, and personalised documents, with a wide range of printers, inks, digital front ends, and a comprehensive business and production workflow suite that transforms and streamlines the entire production process, increasing your competitiveness and boosting productivity. Visit www.efi.com or call 0808 101 3484 (UK only) or +44 (0)1246 298000 for more information.
