

Overview

With its comfortable automatic swing away system, the new and improved Secabo TS7 transfer press provides a particularly large working space for easy alignment of the transfer objects. The large base plate with dimensions of 40cm x 50cm is placed in portrait orientation, which makes an exact positioning of elements and objects easier. The auto-open and auto-swing function of the TS7 allows even more flexible and more comfortable working. The Secabo TS7 is suitable for all common heat transfer methods and can be used in almost any area of transfer technology.

features

digital controller

Time and temperature are set within one digital controller.

Large work area

The heat press can be opened up to 100° to work easily and safely

Variable working pressure

the pressure can easily be adjusted - depending on the technology and object

Working safely

The safety and quality of the machines is permanently controlled by German safety standards

Exact temperature distribution

The high-quality heat plate ensures an exact temperature distribution over the whole heating plate

Low hysteresis

The temperature controllers reduce temperature fluctuations to a minimum

technical data

net weight	73 kg
max. working pressure	170 g/cm ²
dimensions	64cm x 70cm x 58cm
environment	+5°C - +35°C / 30% - 70% humidity
power supply	AC 230V / 50Hz - 60Hz, 1.8kW
maximum time preset	999 s
max temperature	225 °C
scope of delivery	heat press, power cord, english manual
working area	40cm x 50cm
pressure setting	Height adjustment base plate
